

LINIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

	International General Certificate of Secondary Education						
CANDIDATE NAME							
CENTRE NUMBER		CANDIDATE NUMBER					
INFORMATIO	N AND COMMUNICATION TECHNO	DLOGY	0417/11				
Paper 1		Oc	tober/November 2013				
			2 hours				
Candidates and	swer on the Question Paper.						
No Additional N	Materials are required.						
READ THESE	INSTRUCTIONS FIRST						
Write your Cen	ntre number, candidate number and r	name on all the work you hand in.					
	lue or black pen.	•					
•	a soft pencil for any diagrams, graphs						
	ples, paper clips, highlighters, glue o ΓE IN ANY BARCODES.	r correction fluid.					
DO HOLL WITH							

No marks will be awarded for using brand names of software packages or hardware.

Answer all questions.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

For	Exar	niner'	s Use

This document consists of 12 printed pages.

1 Name the input devices A, B, C and D using the words from the list. В C D A Bar code reader Chip reader **Graphics tablet** Laser printer **Magnetic Stripe Reader** Numeric keypad Remote control **Trackerball** В С D [4] 2 Ring two network devices. DVD R **Bridge** Light pen Magnetic tape **Printer Switch** [2] 3 Tick **True** or **False** next to each of these statements. True **False** Withdrawing money from an ATM is an example of batch processing. The processing of bank cheques is an example of batch processing. Booking a theatre ticket is an example of online processing. Producing utility bills is an example of online processing. [4]

9 A student wishes to use a floor turtle to draw this shape:

For
Examiner's
Use

Name and explain the meaning of **four** instructions that the turtle graphics software would contain in order to draw the shape. Note: a, b and c are the same length.

Instruction 1	
Meaning	
Instruction 2	
Meaning	
Instruction 3

	[8]

10 Tick whether the following statements are **true** or **false** about student records in a database.

	True	False
A file is a collection of related records.		
A field is one item of data such as name or address.		
The same value can occur several times within a key field.		
A record is the complete data about one student.		

11 Hospitals often use computers to continuously monitor patients. (a) Describe the monitoring process. (b) Give four advantages of using a computer rather than nurses to monitor patients.

12 A shop owner uses a spreadsheet to calculate his profits. This is part of the spreadsheet.

	А	В	С	D	Е	F	G
1	Producer	Food type	Number in stock	Cost Price	Selling Price	Profit	Total profit
2	Logekks	Potato flakes	168	\$1.80	\$1.90	\$0.10	\$16.80
3	Squarebranch	Chocolate bar	202	\$0.75	\$0.80	\$0.05	\$10.10
4	Roofs	Beefburgers	88	\$2.05	\$2.25	\$0.20	\$17.60
5	Kapats	Gravy	120	\$3.20	\$3.45	\$0.25	\$30.00
6	Startle	Yoghurt cream	122	\$1.50	\$1.65	\$0.15	\$18.30
7							
8		Total in stock	700		Overall profit		\$92.80
					J	,	

(a)	Give the cell reference of the cell that contains \$3.45.	
		[1]
(b)	Give the cell reference of a cell that contains a label.	
		[1]
(c)	How many columns are shown in the spreadsheet?	
		[1]
(d)	Write down the formula which should go in cell G2.	
	=	[1]
(e)	Formulae similar to that used in cell F2, that is to say = $E2 - D2$, have been used cells F3 to F6. These were not typed.	in
	Describe how these were entered.	
		[2]

	(f)	Spreadsheets can be used for modelling.	
		Give three reasons why computer models are used rather than the real thing.	
		1	
		2	
		3	
		[3]	
13		scribe the differences between a CLI (Command Line Interface) and a GUI (Graphical er Interface).	
		141	

14 The head teacher of a school has employed Pierre, a systems analyst, to create a new database system to keep details of all students. Each student will be allocated a unique ten digit reference number.

For Examiner's Use

Pierre has written out some of the questions that the head teacher might ask. He can then analyse these in order to design a database which may answer these questions. Some are:

Which year is Johann Schmidt in? (the school has students in years 7 to 13) Does Anita Nash have a sibling (brother or sister) in the school?

(a) Complete the data dictionary table below giving the field names which would be used in the database and identifying a validation check for each field.

Field name	Validation check
Reference_number	
Year	
First_name	
	None

[6]

explain the differences between verification and validation giving reasons why both are needed when data is entered into a database.	Э

	needed when data is entered into a database.

15	Flo	yd has purchased a laptop computer. He wants to use it for Internet banking.
	(a)	Explain why Floyd would need the following two items.
		Browser
		ISP
		[2]
	(b)	Discuss the advantages and disadvantages to customers of using Internet banking rather than visiting the bank.
		[6]

16	Describe what is meant by a Wiki.
	[4]
17	There are a number of health and safety risks associated with using computers.
	For the three safety risks given below, describe a way in which each can be minimised.
	Electrocution
	Fina
	Fire
	Tripping
	[3]

18	There are many microprocessor-controlled devices in the modern home.	
	Describe five effects of these devices on people's lifestyles.	
	1	
	2	
	3	
	4	
	5	
	[5]	
19	Describe encryption and discuss the benefits and drawbacks of using it to make data secure.	
19	•	
19	secure.
