Paper 1 October/November 2015

2 hours

Candidates answer on the Question Paper.

No Additional Materials are required.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use an HB pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, glue or correction fluid.

DO **NOT** WRITE IN ANY BARCODES.

No marks will be awarded for using brand names of software packages or hardware.

Answer all questions.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

The syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

1 Many word processing packages have a number of formatting features.

Write down six of these features which have been used in the following passage.

The boiling point of **water**, H₂O, at normal atmospheric pressure is 100°C. The two elements which make up water are <u>Hydrogen</u> and <u>Oxygen</u>. Water covers seventy percent of the surface of the earth. In different parts of the world, water can be found in liquid, solid, and gaseous forms. In its liquid form it is tasteless and odourless and more or less colourless. Many substances dissolve in water and because of this it is commonly referred to as the *universal solvent*.

15	Stu	dents at a school visit a variety of websites on the internet to get information about a topic.
	(a)	Describe four features of a website that will prove that the information found on it is reliable.
		1
		2
		3
		4
	(b)	[4] Describe three other features of a website that may indicate that the information found on it is
	(5)	not likely to be reliable.
		1
		2
		3
		[3]

	(c)	In order to make reliable information available to all students, schools often put the information on their intranet.
		Describe what is meant by an intranet.
		[4]
16	Give	e four benefits of using social networking sites.
	1	
	2	
	3	
	4	
		[4]

17	There are many health issues associated with the use of computers.	
	Name three of these health issues and for each one describe, in detail, a different cause.	
	Health issue 1	
	Cause	
	Health issue 2	
	Cause	
	Health issue 3	
	Cause	
		[6

18 Tick three features of wikis.

	✓
A wiki is an example of a spreadsheet.	
A wiki is quicker to search than a database.	
Wiki entries are in chronological order.	
A wiki can have several contributors.	
Wikis are always a reliable source of information.	
Wikis can be edited using a web browser.	
Anybody can create a wiki.	
Wikis never contain hyperlinks.
